# Store funds indefinitely

Access, store and move funds when you want, how you want.

Zepto Stored Value allows you to securely hold money — yours or your customers — in a virtual account indefinitely. The funds can then be moved when you want to meet your business and/or customer needs.

Zepto Stored Value connects to all our existing payment rails so that your money can be easily transferred in and out via the New Payments Platform [NPP] or BECS.

## Store funds indefinitely, move funds precisely and manage funds purposefully with **Zepto Stored Value**.

#### **Fund money**

when you or your customers need via all our existing payment rails [NPP or BECS].

**Zepto Stored Value Facility** 

Funds are ring-fenced and held securely as client monies indefinitely.

Pay-out into any bank account at any time based on your or your 'customers' needs.

### **Product features:**

- Keep your operational cash within the Zepto ecosystem indefinitely
- Hold an infinite amount of money (AUD)
- Get visibility on the movement, origin and purpose of funds moving in and out of accounts
- Access to real-time NPP and BECS payment rails
- Access Zepto's UI or integrate our API into your own platform

# Unlock the future of payments

Enterprise ready real-time account-to-account [A2A] payment solutions

Zepto's real-time payments and rich data strategically enable businesses to create seamless product and payment flows.

Zepto creates the real-time digital payments experience customers expect, and the operational efficiencies businesses need.

### Your smarter payments partner

With a Zepto solution, consumers can pay for things using nothing more than their bank accounts.

Businesses can confidently collect and receive data-rich payments directly from their customers' bank accounts, and have them settle and reconcile instantly 24-7-365.
